

Continue the Experience

From the majestic wilderness of the Kimberley, pristine blue waters of the Rowley Shoals or unique culture of Papua New Guinea the vessel True North has always made a lasting impression with all that have travelled with her. For many a True North experience has become a regular occurrence and it is therefore with excitement that we are able to continue the experience on land and introduce our latest venture.

With sweeping views of the south west coast surrounded by lush green woodlands of tall Jarrah & Peppermint trees True North Ashore is situated in the heart of the world famous Margaret River wine region in the very desirable location of Eagle Bay.

Fast becoming Western Australia's most exclusive south-west destination Eagle Bay offers the ultimate beachside experience for both families and couples alike.

Continuing the reputation that North Star Cruises is known for, True North Ashore is definitely the most spectacular residence in the area. Inspired after 20 years cruising in the Kimberley the property features a breathtaking indoor Kimberley waterfall surrounded by greenery and rocks individually selected from North West Australia. At the entrance level the roof line even has a boat theme which is continued throughout and one can only compare the experience to a stay on True North – right down to the whales cruising past your bedroom window! Award winning designers and artists

have been chosen to ensure the same quality experience would be continued on land as would be had on the actual True North.

With Kimberley tones throughout, Blackbutt floors and walls blended with native Marri timber, tv/dvd entertainment systems in every room complimented with designer furnishings & accessories nothing has been forgotten on the inside. For the business person there is access to the internet with a separate study area for privacy, and children or big kids alike will also enjoy the surround sound, Foxtel, Sony PlayStation 3 and pool table. For the keen fishermen clean your catch and gear at the outdoor

wash station overlooked by the wood fired pizza oven on the balcony. Walk to and enjoy the beautiful blue waters of Eagle Bay during those lazy summer days or curl up next to the gas fire for extra warmth on those cozy winter nights. Friends and family can finish the day relaxing in the spa or sauna with an award winning Margaret River wine in hand.

Able to spaciouly accommodate eight people in total luxury you cannot help but be impressed with the extensive attention to detail that foresees the property being placed in the latest design awards. With a private dam to catch your own fresh crustaceans, to an on-call chef waiting to tempt your tastebuds. Begin the day with a yoga session

and end it with a massage on your balcony – once again the True North crew have thought of everything! Welcome to True North Ashore.
